2022 Mandiant Academy Quarterly Grant Program
Request for Applications

Mandiant recognizes the value nonprofits provide in closing the cyber security skills gap by providing education opportunities to their members. To assist with their efforts, Mandiant has created a grant program to award up to 960 hours of free on-demand intelligence training to a selected nonprofit organization each quarter. These organizations may allow their members to receive the free training courses, to increase their skills in cyber security intelligence as they embark on their cyber security career and to gain skills they can apply in their current roles.

The grant window is open and Mandiant plans to award the first grant for this program in June 2022.

The on-demand intelligence training will allow nonprofit members to understand cyber intelligence fundamentals and deep dive into how to turn intelligence into action. It empowers them to build their skills and understanding of how to use intelligence across various job roles and skill levels.
